**Frontend Technologies:** HTML5, CSS3, Bootstrap, Tailwind, Javascript

**Database:** MYSQL

## PROJECTS

---

**BuyBazaar** | [Html5](#), [Css3](#), [Bootstrap](#), [Tailwind](#), [javascript](#)

- Developed the frontend for BuyBazaar, a comprehensive e-commerce platform designed to offer a seamless and engaging shopping experience for users.
- Created an intuitive and visually appealing user interface using HTML, CSS, and JavaScript, ensuring a cohesive look and feel aligned with the brand's identity.
- Implemented responsive design techniques to ensure the website is fully functional and visually appealing across various devices and screen sizes.
- Developed client-side form validation using JavaScript to ensure data integrity and provide immediate feedback to users during the checkout process.

**Password-Generator** | [javascript](#), [Html5](#), [Css3](#)

- Developed a user-friendly and secure password generator website, SecurePass, designed to help users create strong, unique passwords to enhance their online security.
- Implemented robust password generation algorithms using JavaScript, providing options for length, complexity, and character types (uppercase, lowercase, numbers, symbols).
- Ensured the website is fully responsive and functional across various devices and screen sizes through CSS media queries and flexible grid layouts.
